(3) comply with the Duty to Cooperate

Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

CPRE welcomes a clear and positive density strategy, particularly the substantial uplifts from the previous 25 dwellings per hectare (dph) guideline in the Core Strategy. The densities proposed are a step change forward but are still far short of best practise.

It is appropriate that these densities are expressed as minima and in the majority of cases it will be possible and desirable to exceed them.

Higher density is not simply the best way to ensure land is used efficiently and harm to green fields minimised but also the best way to ensure that truly affordable houses are built (rather than prices of market houses inflated to apparently subsidise affordables).

It is not apparent however that these densities are translated into the site allocations in the Plan. At Wheatley Campus for example “at least” 300 new homes are intended on a site of 22 hectares. Assuming that “at least 300” is less than 350 that would give 16 dph. at most. Even stripping out the contentious “green infrastructure” and taking the “existing development footprint” of 12 hectares would give just 29 dph against a target of 45.

(Continue on page 4 if necessary)

Please set out any modifications you consider necessary to make the Local Plan legally compliant or sound, having regard to your comments above. (NB - any non-compliance with the duty to co-operate is incapable of modification at examination).

It will be helpful if you could put forward your suggested wording of any policy or text as precisely as possible.

The site allocations in the Plan should be reviewed to ensure consistency with STRAT 5.
