[Cherwell Local Plan 2042 - KDW's response - Kidlington Development Watch](#)

CPRE Oxfordshire are highly supportive of the Local Green Space designations, to allow local communities to protect green space which they value.

However, CPRE feedback from members is that this is a difficult, complex process , with little support given to some small communities who have worked tirelessly and collaboratively to maintain and improve their cherished Local Green Spaces and had their applications refused.

At the Reg 18 stage CPRE registered our disappointment that only 3 LGS had been approved. At this stage we suggested that there was a serious failure in the process and that more needed to be done to raise awareness of this opportunity and to help communities understand what evidence is required to make a successful site nomination. CPRE Oxfordshire offered to work with Cherwell District Council to discuss possible collaboration on this issue, but this was not taken up.

CPRE welcome the increase at this Reg 19 stage to 17 locations. However, we flag up that of these 17, 15 are in Bicester. Our member feedback is that Local Green Spaces in Bicester have had greater support from their local councillor to reach a successful outcome than in other areas. Whilst CPRE are supportive of all these LGS, we would like to see others being included. The complexity of the process, along with lack of support and feedback has been unfair.
